

# Colleáyn T. Klaibourne

## fine art & celtic designs

Colleáyn Klaibourne's background is as vibrant as the art she enjoys creating. The Red Wing, MN artist's passion is in creating art – capturing beauty and colour in themes ranging from up-close floral and nature settings to traditional Celtic Art.

Colleáyn graduated with honors from the University of Wisconsin- Stout with a Bachelor of Fine Arts degree in Interior Design and Space Planning. With a heavy emphasis in Architecture & Design, she planned on pursuing that as a career. But following a Near Death Experience in 1991, she began creating art. Detailed, intricate Celtic designs began to emerge without any training in this area. As an Artist, she continually enjoys exploring new techniques, mediums and ways of expressing her creativity. Colleáyn currently utilizes acrylics and water-soluble oils as the primary medium for her artwork.

With each piece, the artist spends hours layering colors and/or texture to give it its depth and vibrant colors that speak to one's soul.
